### **ASBESTOS PRODUCTS**

In China there are rich and extensive deposits of asbestos which is characterized by its outstanding properties. It is refractory and is used for heat and electrical insulation. It also resists efficiently corrosive solution such as dilute caustic and weak acid. Its fibres are fine, long, silky and white, tough and pliant. Our asbestos products are manufactured in conformity to the international standards, they possess high degree of tensile strength, power of water absorption and heat resistance.

In the manufacture of our Twisted Asbestos Yarn, Asbestos Rope Lagging, Asbestos Cloth, Asbestos Millboard and Braided Asbestos Packing (square or round), they are all made of the finest raw materials, thus gaining the best approbation of the consumers. We are also guided by an endeavour to do our utmost to make incessantly further improvements of our asbestos products for the sake of satisfying the requirements of our customers.

## TWISTED ASBESTOS YARN

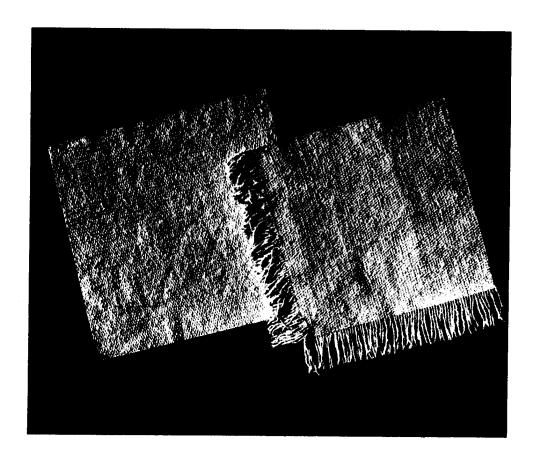

#### TWISTED ASBESTOS YARN

The Twisted Asbestos Yarn is made of asbestos fibres of high quality, being compact and flexible in its use for the lagging of electric wires and cables, steam pipes, etc., and for the stuffing of gaps between parts in a steam engine to prevent leakage and insulate dissipation of heat. These yarns are supplied in spools of 7 lbs. each and in diameters of  $\frac{1}{4}$  to 1".

Weight & Length of Twisted Asbestos Yarn of different diameters:

Diameter	18"	3/4"	<b>‡</b> ″	5/s"	3 <b>"</b>
Length (ft) per 11b.	206	125	74	46	28

## ASBESTOS CLOTH

#### **ASBESTOS CLOTH**

It is made of fine asbestos yarn and used as lagging for electric cables and steam pipes and filters in chemical industries. In addition, they can also be utilized for making fireproof jackets, fireproof curtains and heat insulating materials.

Specification: Thickness:

½″,

Width:

40"

Weave:

Plain

(Other specifications can be made to order).

Weight of Asbestos Cloth per foot in the following thicknesses:

Thickness:

1/6"

Weight (lb): 0.81

1.1

1.4

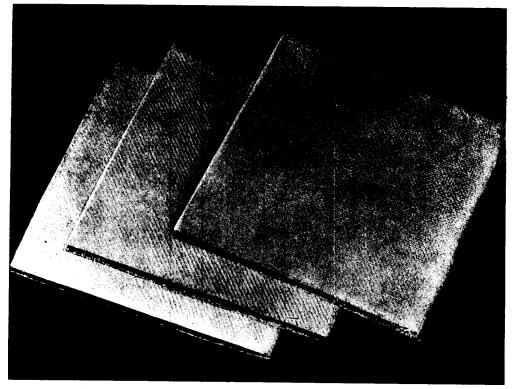

Packing: Each roll is packed in gunny bag and weighs 112 lbs net.

#### ASBESTOS MILLBOARD

Asbestos Millboard is manufactured by a special treatment from purified asbestos and it is mainly used in vehicles, steamers and in the field of construction, in which it is designed to insulate heat and sound. It can also be used as a material for electrical insulation and an indispensable packing of engines or boilers.

Specification: Length:

I M or 2M

Width:

IM

Thickness:

mm.

1.6

 $\frac{1}{46}" - \frac{5}{8}"$  (Other thicknesses can be made to order).

List of weights of Asbestos Millboard in Kg. per sq. m. according to their thicknesses is shown as follows:

Thickness

in.

Weight in Kg/sq. m. 1.6

3.2 4.8 3.2 4.8

8 9.6 11.2 12.7 14.3 15.9 8 9.6 11.2 12.7 14.3 15.9

N. B. The weights listed above are approximate. For a length of 2 meters, the weight is twice the figure listed.

6.4

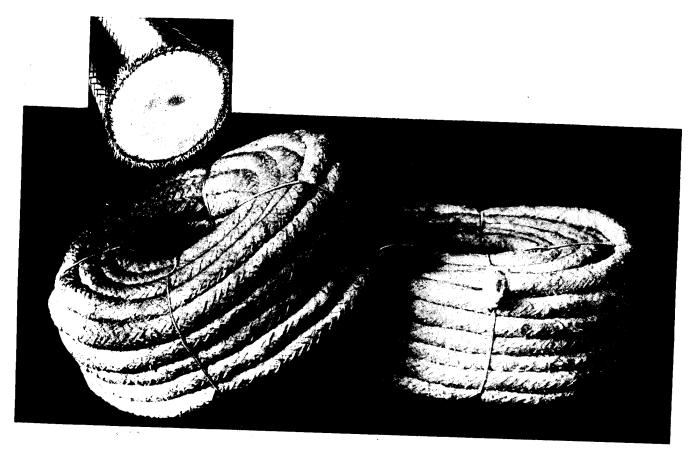

Packing: They are packed in crates and the number of sheets in each crate varies with its thickness, each crate weighs 100 Kgs. approximately.

# ASBESTOS ROPE LAGGING

#### ASBESTOS ROPE LAGGING

The process of manufacturing Asbestos Rope Lagging is to form a core with pure asbestos fibres and then cover it with a jacket braided from asbestos yarn, so it is tender to the touch, and suitable for use on vibrant pipe fittings on trains and steamers as wrapping materials for insulation purposes.

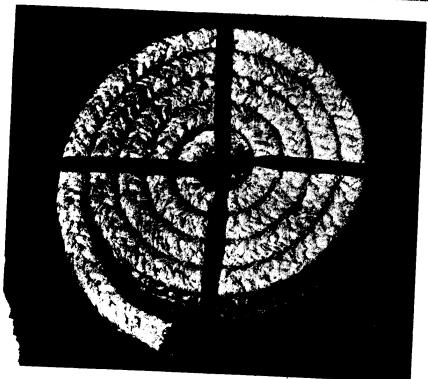

Specification:  $\frac{1}{2}$ "×100',  $\frac{5}{8}$ "×100',  $\frac{3}{4}$ "×100',  $\frac{7}{8}$ "×100', 1"×100'

Each coil weighing 5,  $6\frac{1}{2}$ ,  $7\frac{1}{2}$ ,  $9\frac{1}{2}$ , or  $11\frac{1}{4}$  lbs.

Specifications of 1"-2" can be made to order.

Packing: Each coil is packed in gunny bag weighing 100 lbs. net.

## BRAIDED ASBESTOS PACKING (DOUND of SQUARE):

## BRAIDED ASBESTOS PACKING (round or square)

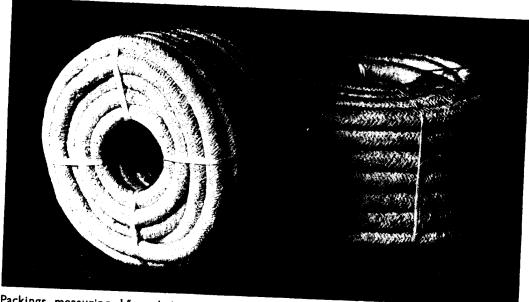

Braided Asbestos packing is pliant to the touch and is capable to withstand high temperature. It is extensivley employed in industries as packing and coating stuff for insulation purposes on all kinds of equipments such as pipe fittings, furnaces, stoves, ovens and so forth.

Specification: Diameter from  $\frac{1}{4}$ " to 2"

Length in feet per 1 lb. in the following diameters:

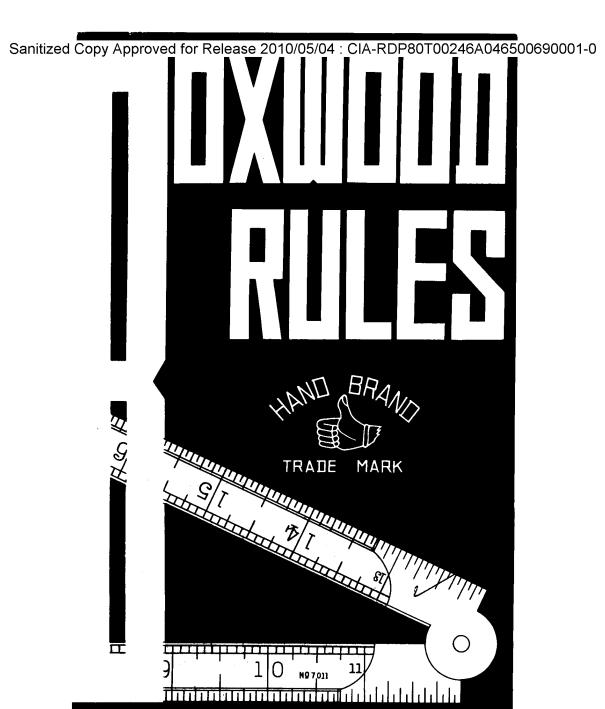

Diameter:  $\frac{3}{8}$ "  $\frac{1}{2}$ "  $\frac{5}{8}$ "  $\frac{3}{4}$ "  $\frac{7}{8}$ "  $\frac{1}{8}$ "  $\frac{1}{4}$ "  $\frac{1}{4}$ "  $\frac{1}{2}$ "  $\frac{1}{8}$ "  $\frac{3}{4}$ "  $\frac{3}{8}$ "  $\frac{3}{4}$ "  $\frac{7}{8}$ "  $\frac{1}{8}$ "  $\frac{1}{4}$ "  $\frac{1}{4}$ "  $\frac{1}{4}$ "  $\frac{1}{2}$ "  $\frac{3}{4}$ "

For Packings measuring 1" or below in diameter, 8 coils are packed in a gunny bag and each coil weighs 14 lbs, while for those measuring above 1", 4 coils in a gunny bag and each weighs 28 lbs.

中國製造 MADE IN CHINA

#### "HAND" BRAND

### WOOD RULES

Specification: 2 Feet marked inches in 8ths,

16ths, 10ths and 12ths.

Packing:  $\frac{1}{2}$  dozen per carton, 100 dozen

in a wooden case.

Measurement:  $67 \times 41 \times 40$  cm.

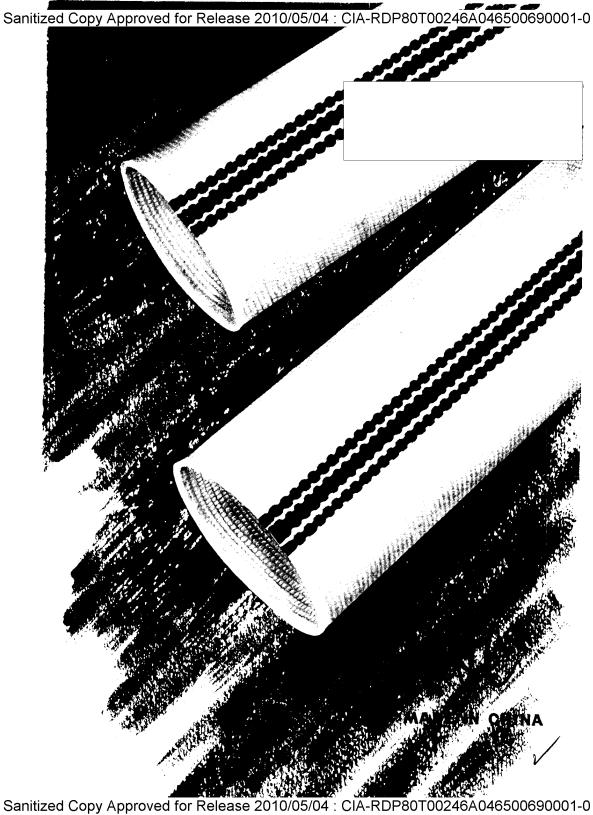

Weight: 95 kg. gross, 85 kg. net.

Glazed wall tiles

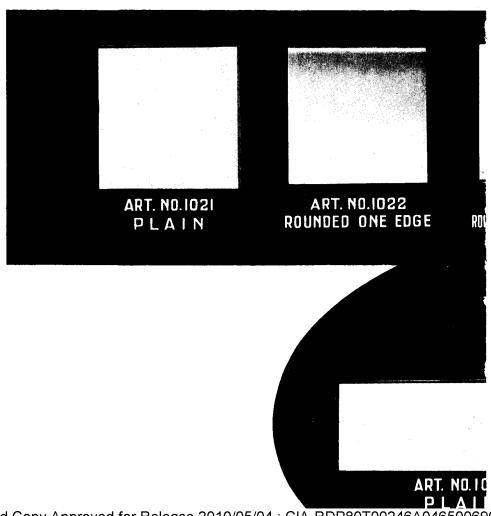

Chinese Glazed Wall Tiles are manufactured from the finest and purest clay. The "S.S." Brand long known to customers abroad as West Mountain Brand is the best grade of the Chinese production for its whiteness in shade, luster in appearance and fineness in quality. They are convenient to fix with the combination of all kinds of matching fillets. They have been selling well in more than 20 countries and regions in Asia and Europe and are highly approbated for their superiority in quality

Glazed Wall Tiles are nowadays indispensable building materials in modern structures. They are widely demanded for fixing corridors, staircases, kitchens, lavatories and walls of public places. Wall can be beautifully decorated with Chinese glazed tiles to make such places highly hygienic for a long time.

The "S. S." Brand Glazed Wall Tiles are packed in strong wooden cases lined with paper between pieces and all spaces are stuffed with padding materials thus avoiding possible breakage caused by violent collision during distant transit.

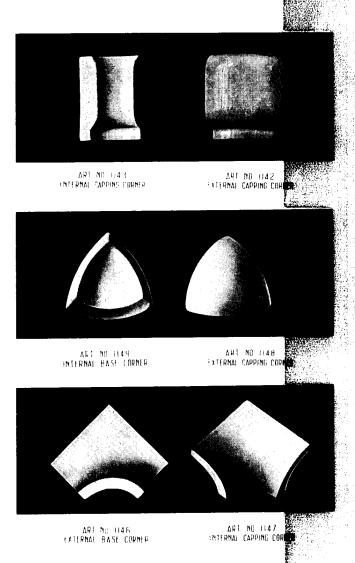

The "S. S" Brand Glazed Wall Tiles are also featured for their reasonableness in prices and promptitude in delivery.

16" OSCILLATING DESK FAN

STURDY IN QUALITY QUIET IN OPERATION

SMART IN APPEARANCE

MADE IN CHINA

#### 16" (400 m.m.) Electric Oscillation Fan

ODEL 57-AD 16 inches (400 m.m.) electric oscillating desk fan is the latest product of Wahson Electric Manufacturing Co. Embodying many technical improvements, this new model is considered as a crowning success, as far as its performance, design, and appearance are concorned. It not only sustains all the well known features of WAHSON ELECTRIC FANS but further possesses the following innovations:—

#### 1. Porous Bearing:

Pressed out of metal powder and soaked in lubricating oil, the porous bearing is well saturated with oil. While running, the lubricating oil issuing forth by capillary action, forms a thin film between the shaft and bearing, thus reducing the frequency of refilling to a minimum and also eliminating entirely the chances of oil leakage.

#### 2. Change of oscillating position:

Being capable of revolving independently of its base, the motor housing of this new model may be pushed to any desired position within 90° approximately, to change the oscillating position without shifting the stand-

3. Adjustment for oscillating or directional blowing:
Automatic oscillating starts when the clutch knob is turned clockwise and tightened.
When automatic oscillating is not required, directional blowing can be effected by turning and tightening the knob in the opposite direction.

#### 4. Wall mounting:

This electric fan not only can be placed on a desk, but also, when required, readily mounted on wall by utilizing the brackets normally concealed undor its base.

#### 5. Low operating temperature:

The temperature rise of the motor housing on continuous operation will not exceed room temperature by more than  $15^{\circ}\mathrm{C}$ .

#### 6. Technical Data:-

#### DIRECTIONS for MAINTENANCE

- (1) For countries in the temperate zone, only yearly refilling of lubricating oil at the beginning of the summer season is necessary; for those in the tropical zone twice yearly would be ample. Detach the motor housing, take out the two screws from the front and rear bearing oil holes; fill 10 to 20 drops of clean lubricating oil in each.
- (2) In case of unexpected disconnection of electric supply, while running be sure to turn the switch to the "OFF" position.
- (3) Careful storage of the electric fan during the idlo seasons will repay in longer and more dependable service. Avoid dusty and damp places; do not leave it didectly on concrete or mud floor.

CAPACITY

back page.

**CONSTRUCTION** 

All-metal construction without wooden part. Platform rests either on steel balls (Models No. either on steel balls (Models No. 101-A and No. 202-A) or on hardened steel knife-edges (Models No. 101-B and No. 202-B) to stand shock and rough loadings. The pillar is made of pressed steel to render durable service and Model No. 202 (A and B) has pillar bracer of iron rods. The beam and poise are made of soli 1 brass with set screw with set screw.

See details for each Model on

BALANCE

The balance adjustment is made by a special key attached to each scale.

GRADUATION

Double or Triple graduations of any standards of weight to suit the buyers purpose. For refer-ence, see details on back page.

**PLATFORM** 

The platform size for Model No. 101 is  $16'' \times 25''$  and for Model No. 202 is  $25'' \times 25''$ . Both Models are supplied with Pillar Guards bolted to the platform.

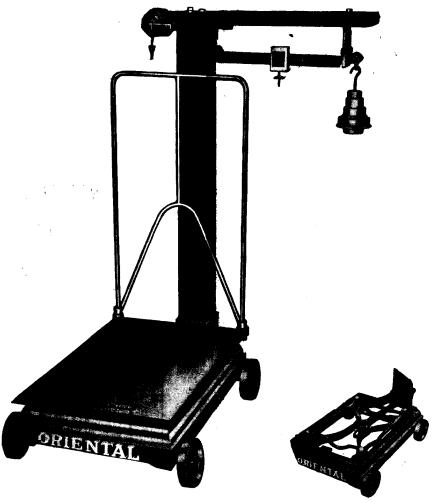

WHEELS

Four wheels are mounted on continuous axles. The wheel diameter for Model No. 101 is  $4\,\%''$ and for Model No. 202 is 5".

**FINISH** 

All ironwork durably finished in black. The pillar and top-plate are finished in bright verminon
